Neckband

After you sew the front and back together at the shoulders, use the 5mm needles to knit the neckband directly on the garment. Here is a helpful tutorial about how to knit the neckband directly on the garment:
<https://www.youtube.com/watch?v=tV5UQ-W8WMQ>

I made a little mistake with the neckband but since the sweater is made for me I did not correct it, but I am correcting it in the instructions.

Start from the middle of the back by picking up stitches **every other loop**. My mistake was that, at the back, I picked up stitches at every loop and it resulted being too much, therefore, only at the back, I am recommending doing it every other loop. For the front pick up stitches at every loop.

Set a marker where you started the neckband to know when you finish the circular row.

After 3 rows cast off and sew the last stitch to the first stitch of the last row.

Sew the sleeves and sides of the front and back, and finish the sweater. Hide all the yarn ends using a crochet or a sewing needle then wash the sweater and let it dry.

Happy Knitting!
